THE LATE ALEXANDER BROWN.

Ogden Pioneer Who Died in That City April 21.

Over 20 Ingredients,— Roots, Herbs, Barks,—

Known to possess great medicinal value, are combined in Hood's Sarsaparilla.

Every physician must inevitably prescribe some of these ingredients in all blood diseases and in troubles with the stomach, liver and kidneys.

He must prescribe them because there are no others known to the profession. Hood's Sarsaparilla comprises all that are of any known-and-tested merit. And every one that we use is gathered at the season of its greatest medicinal value.

The wonderful power of Hood's Sarsaparilla is due:

1. To its peculiar combination of so many different remedies;
2. To the peculiar process by which the full curative strength of every one of them is extracted and retained; and
3. To the peculiar effect—purifying, appetizing and strength-building—that it has upon 99 out of every 100 persons who take it.

That it is an extraordinary medicine is further proved by its extraordinary record of cures—cures of scrofula, eczema, psoriasis, boils, abscesses and all humors of the blood; cures of rheumatism, the prostrating after-effects of the grip and diphtheria and other blood-poisoning diseases; cures of bilious and dyspeptic troubles, loss of appetite, and that tired feeling.

"I have great faith in Hood's Sarsaparilla, because it has done me so much good. I believe it is the very best spring and autumn tonic. I take it whenever I get a little run down, and my system needs toning up, and find it always reliable and beneficial. My father takes it for rheumatism in his shoulders and arms, and says it helps him wonderfully." L. S. Ward, 61 Whittier St., Haverhill, Mass.

Hood's Sarsaparilla

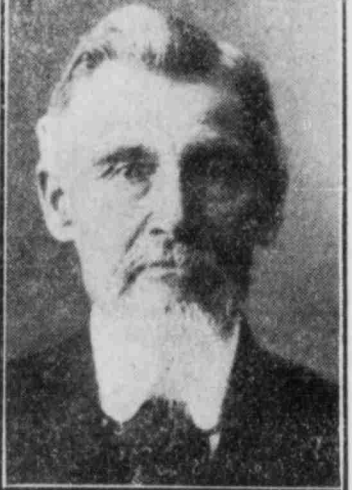

Builds up the whole system. It will make you feel better, look better, eat and sleep better. Get it in usual liquid form, or in chocolate tablets called Sarsatabs.

If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit. Insist on having Hood's and only Hood's.

whom she married at Roy, Utah, Dec. 6, 1899. There are five minor children. Alimony in the sum of \$15 per month with reasonable attorney's fees is asked.

MASS MEETING IN TABERNACLE TONIGHT

Citizens Will Confer on Bond Election For Waterworks Improvements And Light Plant.

(Special Correspondence.)

PROVO, May 21.—This evening at 8 o'clock a mass meeting of taxpayers will be held in the old tabernacle to discuss the bond issue of \$90,000 for a water main line to take the city water over the east bench instead of over the present lower line, and for \$10,000 to be used for the construction of a municipal lighting plant.

City Engineer E. A. Jacobs and consulting Engineer Louis C. Kelsey have been over the proposed line, and have investigated the feasibility of the proposed work and also of the municipal lighting plant, and will be at the meeting to present their reports. The bond election will be held on the 24th.

The proposed change in the city's water main will give a greater fall and therefore more force at the outlets which is of great and needed advantage in case of fires, and there is imperative need of a larger main to carry sufficient water to supply the demands of the water takers. The city has sufficient water in the springs in Provo canyon from which the city water is taken to supply all to the convenience of the citizens without the inconvenience of water and the city without the revenue which could be secured if the demand could be supplied. There is therefore, very little doubt about the waterworks bond election carrying.

The municipal lighting plant is also considered very desirable by the great majority of the citizens, who have investigated the financial workings of other municipal lighting plants, as it will mean a great saving to the city in the expense of street lighting and cut down the light bill of the citizens at least one-half, judging by what is being done by other cities which have a municipal lighting plant.
